

ABOUT US

Over 90 years' experience in printing and paper crafting have turned our family-run business into an international leading company in the manufacturing of paper promotional and stationery products.

Founded in 1924 by current owner's great-great-grandfather, we started producing pocket address books, but after four generations' passionate hard work we extended our portfolio to notebooks, diaries, calendars and small accessories for office.

Our mission is to make our customers' ideas real, to always support them as promptly and carefully as possible, helping them create unique products that speak for their brands.

This is why we pay very close attention when selecting raw materials and always look for functional as well as attractive designs for our products, yet always taking care of the environmental impact of our productions.

Sustainability is a key point to us, actually. Therefore, we only use ecofriendly materials and fsc certified papers for totally green products.

Moreover, we personally take care of every production step, from cutting to printing and final assemblage of each item, to keep a very strict quality control and be very prompt in standard as well as customized productions, thanks to our team's expertise and advanced in-house equipment.

With our very wide range of materials, our customer- oriented sales team and our talented graphic design studio we are able to assist you with a prompt, flexible and positive approach in any challenging project.

Discover our colourful collections and be inspired by Dinatalestyle.

SUMMARY

Bullet Journal Modimò®

Bullet Journal Modimò is a brand new refillable notebook range with extremely flexible and smooth covers in regenerated leather. The cover material comes from leather waste and contains 100% recycled leather fibers. A regenerated waste for a re-usable cover, thanks to the refillable inner journals.

Retime

Retime Collection uses soft regenerated leather as main cover material. Leather scraps deriving from leather goods productions are naturally treated and re-used to become a smooth and flexible material for the covers of our notebooks and diaries. The soft surface and the bright colours give the range an elegant look.

Retime Bourbon

Retime Bourbon features a grainy textured regenerated leather with a matt finish and a velvet touch. It is available in 4 trendy colours and still keeps the flexibility and smell of the leather it derives from.

Retime Vintage

Retime Vintage uses an extremely flexible and thin regenerated leather with matt finish and warm colours. Two textures available to choose from: iguana skin, with a discrete leather-like texture, and elephant skin, with deep wrinkles on it. The combination of colours and textures give the range a charming vintage look.

At Di Natale we really care about the environment and take all possible actions to improve our production process to make it as sustainable as possible. Reducing waste by re-using wasted materials is one of the main features of our collections, where all cover materials are actually recycled or regenerated and all inner papers FSC certified.

RecycleMe

Recycle me collection uses 100% recycled cardboards in a choice of vibrant colours. The rough and irregular surfaces of the covers evoke the recycling process they derive from.

GoGrey

Go Grey is an extremely natural and basic collection using a raw grey recycled cardboard with a very smooth surface for the covers. #Save the Future is the mood inspiring the range, with designs recalling the importance of a sustainable development to preserve the planet for future generations.

Green Mood

Green Mood range is a very inspiring collection where cover papers are produced with 100% green energy and contain up to 30% alimentary waste, replacing up to 15% of virgin tree pulp. By-products from cherry fruit, lavender, kiwi fruit and coffee are among the raw materials used for the cover papers and give the products their distinctive texture and colour.

Polypropylene

Colorissimo, Pastel and My bros are colourful ranges using polypropylene covers with inspiring designs in a selection of vibrant colours.

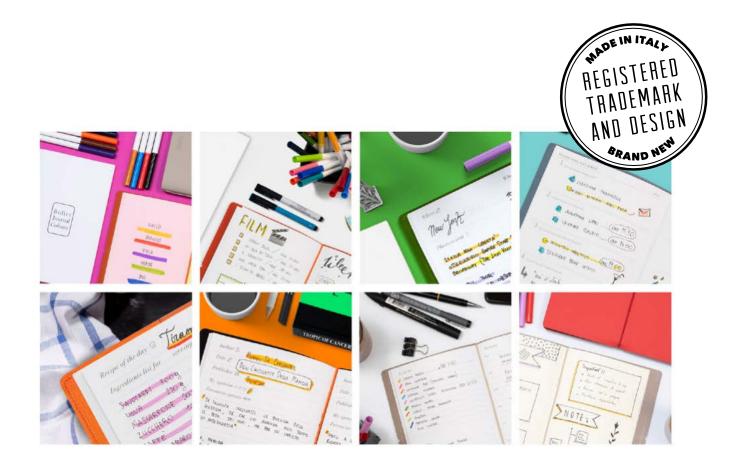

"I think having land and not ruining it is the most beautiful art that anybody could ever want."

ANDY WARHOL

Bullet Journal Modimò is an innovative and most useful tool to plan everyday activities, whether for business or leisure. Its flexible regenerated leather cover and its functional binding allow you to insert two inner journals (white, ivory, lines, travel, food, books, diary, week, my plan, colours) and replace them anytime, quickly and easily. Mix and match the inner journals as you wish to make your Bullet Journal Modimò® as unique as you are.

Bullet Journal Modimò

Basic

Two available sizes: desk size 13 x 21 cm pocket size 10 x 15 cm.

The regenerated leather cover is extremely flexible, handy and light to bring along.

The inner journals are refillable thanks to the elastic band applied to the spine. Replace them anytime you want, always keeping the same cover. Bullet Journal Modimò is an eco-friendly sustainable product.

Bullet Journal Modimò **Basic**

Choose the cover color you prefer from the available standards:

Bullet Journal Modimò

Top

Bullet Journal Modimò becomes even more elegant and refined thanks to the stitching along the cover edges and the useful inner pockets. Covers are made in soft regenerated leather deriving from 100% recycled leather fibers.

Regenerated leather Bourbon finish

Bullet Journal Modimò **Top**

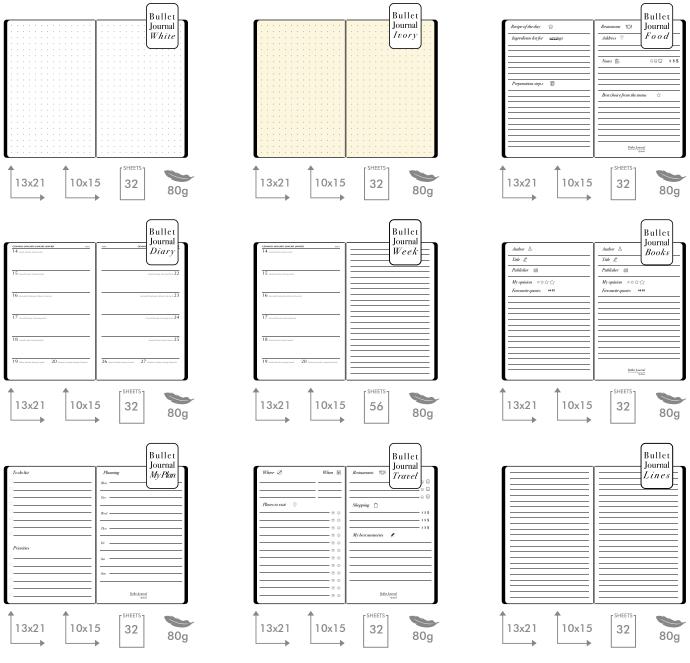

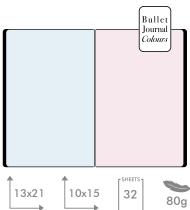

Bullet Journal Modimò **Refills**

All the journals are available in white and ivory fsc certified paper. Mix and match them according to your needs. They can be easily removed and replaced thanks to the elastic band binding.
